Android System and Touch 3.5"

The simple Android touch screen control menu is easy to navigate, making message creation nice and easy. It is possible to have variable data with automatic dates counter, logos and barcodes. The printing resolution, up to 750 dpi, provides excellent barcodes and logos readability, including 2D codes

 Inkjet Technology

The swing brackets ensure always stop printing quality even in very difficult installations. Compared with Piezo technology disposable 42ml cartridge provides always a brand new printhead in the system. The daily maintenance is very simply and easy to make.
